Experience:

Katie Downey joined the Merik team in January of 2000. Her skills include construction building envelope condition assessments; commissioning services; forensic and field testing; project management; as well as construction observation. In addition, she also manages the company's accounts, marketing, and acts as office manager.

While living in Madison, Wisconsin, Katie worked with Facility Engineering, Inc. from 2010-2012 where she helped found the Wisconsin chapter of RCI (Now IIBEC), acting as the Board Secretary.
