Experience:

Bryce McQueen is a Georgia Registered Architect and the President of Merik, Inc. As a senior building enclosure consultant, Bryce has over 15 years of experience in building enclosure consulting and commissioning; management of building enclosure field testing; roof, facade, and waterproofing condition assessments; and repair and rehabilitation design. He is a specialist in restoration of historic structures as well as building enclosure components in new construction. Bryce provides building enclosure consulting services to Architects, General Contractors and Building Owners.

Prior to joining Merik in 2018, Bryce spent 10 years as a building enclosure consultant, project manager, and Architect at Wiss, Janney, Elstner Associates, Inc. (WJE) in Atlanta, Georgia.
