Experience:

Michael Baker is a Principal at Merik, Inc. who is a Registered Architect in five states and Registered Roofing Consultant. Mike has over 40 years of varied architectural and building enclosure consulting experience. Mr. Baker has served as an Architectural Program/Project Manager, Design Architect, and Construction Inspector. Over the last 7+ years, Mike has been a Senior Building Enclosure Consultant conducting and managing building enclosure investigations, enclosure field testing, water intrusion investigations, and property condition assessments for new and existing buildings. He is a specialist in roof assessments and replacement design. Mike provides building enclosure consulting services for Architects, General Contractors, Developers, and Building Owners.

Prior to joining Merik, Mike spent 6 years as a building enclosure consultant at Terracon Consultants and 1.5 years as a Roofing Consultant for the USPS RAMS Roofing Program for Wood, PLC - both companies in Atlanta, Georgia.
